<u>Assignment Grade Sheet for All Assignments</u>
<u>CS203 Computing and Algorithms III</u>

The program is believed to be written by the author. That is, the author if asked, is able to answer all questions about his/her program. If yes, proceed to next step otherwise a grade of 0 given for the first time, and the second time a failing grade is given for the course.

The write up was turned in. The algorithm appears correct, reasonably efficient and follows all internal requirements. (this can be verified by the write-up provided) (if yes, proceed to next step, otherwise a maximum grade of 30 is awarded)

The program has reasonable design and style and specifically complies with the style guide provided on Blackboard. (if yes, proceed to next step, otherwise a maximum grade of 40 is awarded)

The program compiles and has significant amount of relevant code (if yes, proceed to next step, otherwise a maximum grade of 45 is awarded)

The program's output was turned in. The program runs and produces the right results (if yes, a max of 100 points is awarded).
